---

**This popular training event provides delegates with an overview of the ano-genital anatomy, examination techniques, possible differential diagnosis and management of ano genital signs and symptoms, in particular where sexual abuse or assault has not been disclosed by the child.**

**The day will also provide an overview and guidance on the subject of female genital mutilation.**

**The course would be suitable for all doctors and nurses who see pre-pubertal patients whether or not there has been a disclosure of sexual assault.**

**We look forward to welcoming you on the day.**
